

HOW TO MINE MANILA

A Beginner's Guide to the Cryptocurrency of the Philippines

1. Download Wallet

Go to www.manilacoin.io and download the mining wallet, "**Manila-qt.exe**"

2. Download CCMiner

Download the "**mining package**" from www.manilacoin.io and unzip it. Right click the file called "**Mine Manila**" and click "**Edit**"

3. Find Your Receive Address

Double Click "**Manila-qt.exe**". Wait for the blockchain to sync, or click "**hide**". Then click "**Receive**" > "**Request Payment**" > "**Copy Address**" to access your **Receive Address**

Configure CCMiner

Replace "**WALLETADDRESS**" with your Receive Address found in "**Manila-qt.exe**". Save and close the file.

Mine Manila

Double click the "**Mine Manila**" file. Coins will arrive in your **Manila-qt** within roughly 24 hours. You can view your mining stats at <https://happypool.co/?address=WALLETADDRESS>
